Red Cross Seeks Cut In Accident Toll

1,725,406 First Aiders Trained Since 1910

Cognizant of tremendous losses in iman lives and of permanent inhomes, on farms and highways, and round industrial plants as well as n the basement workshop, officials of the American Red Cross have been directing a systematic fight against what they term "this economic waste." As part of this nation-wide effort to reduce deaths and permanent injuries from accidents, a recent statement from Red Cross headquarters in Washington reports that during the past 12 months certificates have been granted to 295,028 persons completing courses in the administration of Red Cross first aid. Holders of these certificates have followed detailed courses of study, and have been taught how to splint fractured limbs, stop flow of blood, treat poison sufferers, care for victims of heat, electric shock, and handle other common emergency situations. The courses emphasize methods of caring for patients until professional medical aid can b summoned to scenes of accidents. Since 1910, the report reveals ,725,406 persons have received th training from qualified Red Cros nstructors, and at the present tim 20,429 persons are qualified to give such instruction Bringing help nearer scenes of

possible accident, 2,454 emergency first aid stations have been established in strategic locations on prin cipal highways throughout the na ion, operators of the stations re ceiving the prescribed Red Cross instructions and maintaining full first aid equipment on the spot. Con-

Chevrolet Takes Big Strides Ahead for 1939

New Aero-stream styled bodies combine with major mechanical improvements to provide new beauty, safety, comfort and operating ease, in the 1939 Chevrolets, presented October 22, and featured at the big auto shows this month. The new models are offered on two chassis, the Master De Luxe and the Master 85, both of which are powered with the safety of this safety of the safety of with Chevrolet's famous six-cylinder valve-in-head engine. with Chevrolet's famous six-cylinder valve-in-head engine.

A new vacuum gear shift mechanism with steering column control, optional on all models at small extra cost, does 80 per cent of the work of shifting gears. The Master De Luxe series features a new riding system, in which a brand new Chevrolet Knee-Action mechanism is scientifically co-ordinated with new ride stabilizer and double-acting hydraulic shock absorbers to furnish a smooth, soft ride.

Central picture is the new Master De Luxe Sport Sedan. Upper right: front end view of the 1939 car; Upper left: there. They must of course have been removed but there might be other valuables. She turned from the other room, I guess, miss. Friend of Jock Ayleward's?

more than he pays for.

ownership by providing loans through this association up to 75% of the normal agricultural value of the farm.

First and second mortgage loans are made at interest rates of 4 and 5 per cent a year.

If your cash investment in the farm is enough so that a loan equal to as much as 75% of the appraised normal value will supply the balance of the purchase price, the man who sells the farm is naid cash in full.

Announcement was made that the next county-wide teachers meeting would be held in New J. V. Wright, Mrs. Pearl for the best answer to the question, "Why I Love Music."

At the conclusion of the program, the hostesses served a love-ly salad plate with tea.—Reporter.

The Forty-Niners

Early settlers traveled by covered wagon and paid their debts with gold dust. . . .
Our present "Modern America" demands more speed-air liners for travel, checks for currency. In a few moments at your desk-with your check book, you can pay scores of bills-locally or across the continent. And checks are far safer than cash. There's no arguing with a cancelled check as to a payment that's been made.

ELBA EXCHANGE BANK J. F. BRUNSON, Pres. E. G. BRAGG, Vice-Pres. T. B. BRYAN, Cashier.
